Dear Mr. Castro:

This is in reference to the above-captioned license application to cover the construction permit application (File No. BP-20100310AAG).¹

A preliminary review of the application reveals that the proposed operating parameters disagree with those on KBPO(AM)'s licensed authorization BS-19940107.

Proposed parameters:

Towers	Antenna monitor phase reading in degrees	Antenna monitor sample current ratio
1	0	1.0
2	-5	0.820

License parameters (BZ-20071108AFI):

Towers	Antenna monitor phase reading in degrees	Antenna monitor sample current ratio
1	0	1.0
2	-12	0.820

In order to obtain new operating parameters, a partial proof of performance conducted on KBPO(AM)'s directional antenna system in according to Section 73.154 must be submitted.

¹ Construction permit application (File No. BP-20100310AAG) proposes to correct coordinates.

Further action on the subject application will be withheld for thirty (30) days from the date of this letter in order to provide an opportunity to file a curative amendment. Failure to respond or file an amendment within this time period will result in the dismissal of the application pursuant to Section 73.3568 of the Rules.

Sincerely,
